CSSJ is pleased to announce a new agreement with the European Society for Applied Superconductivity (ESAS) <https://www.esas.org/>. The aim is to encourage the exchange and dissemination of technical information, and to promote understanding and cooperation between the officers and participants of both associations. This partnership is expected to provide sponsorship of technical meetings and student attendance, and publishing of papers in the Superconductivity News Forum (SNF). Both associations are expected to enter into other joint activities, such as events, educational materials or outreach and dissemination.
